

Ugens Blackboard tip - Kopiér kursusindhold til nyt kursus

Det kan ikke vare længe før du måske har brug for at kopiere indholdet af et eksisterende kursus over i et forår 2016 kursus.

Derfor får du her en beskrivelse af hvordan det gøres.

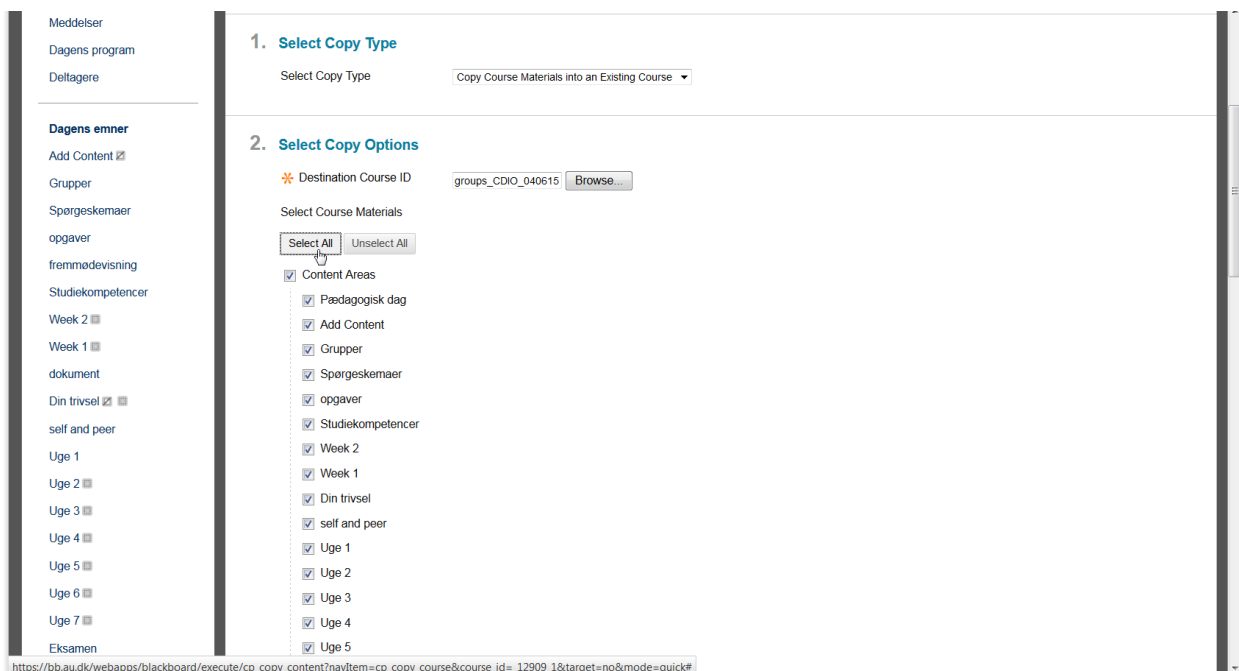

Du skal indledningsvis befinde dig i dit "gamle" kursus. I Course Management finder du menupunktet "Packages and Utilities", og herunder punktet "Course Copy". Denne klikker du på.

Her vil du så finde i

Pkt. 1: Muligheden for at vælge om de studerende og deres resultater skal kopieres med.

Pkt. 2: Muligheden for at vælge hvilket indhold der skal kopieres.

Efterfølgende skal man være opmærksom på hvilken mulighed man vælger i pkt. 3:

Hvis du vælger "Copy Links to Course Files": No copies of linked files are included in the copy. The copied course will have the same set of links and those links will point back to the original location of the link defined in the origin course.

Hvis du vælger: "Copy links and copies of the content": This will make copies of linked files, but ONLY those files that are linked. Files within the course's home folder that are not linked to any content within the course are not included in the copy.

Hvis du vælger: "Copy links and copies of the content (include entire course home folder)": This will make copies of ALL files in the course's home folder regardless of whether those files are linked to course content.

(Beskrivelser fundet [her](#))

The screenshot shows a web interface for configuring a course export. It is divided into three main sections:

- 3. File Attachments**: This section contains a sub-header "Course Files" with three radio button options: "Copy links to Course Files", "Copy links and copies of the content", and "Copy links and copies of the content (include entire course home folder)". Below this is a "Package Size" section with two buttons: "Calculate Size" and "Manage Package Contents".
- 4. Enrolments**: This section has a sub-header "Enrolments" and a checkbox labeled "Include Enrolments in the Copy".
- 5. Submit**: This section contains a sub-header "Submit" and a note: "Click **Submit** to proceed. Click **Cancel** to go back." At the bottom right of this section are two buttons: "Cancel" and "Submit".

Herudover kan du vælge om du blot ønsker at kopiere alle indrullerede til det nye kursus.

Når du trykker på "Submit" vil du få nedenstående skærbillede, såfremt kopieringen lykkedes.

Success: Course copy action queued. An email will be sent when the process is complete.

Packages and Utilities

Bulk Delete

Recycle the course by selectively removing areas.

Course Copy

Copy information from selected course.

Export/Archive Course

Create a backup package of the Course. Archive will include user records and interactions with the Course while Export will only include Course content.

Import Course Cartridge

Download and install a Course Cartridge.

Import Package / View Logs

Import specific areas or all of the materials in a package file.
